

## THE GREAT FIGHT.

The Eyes of the Sporting World Now Looking Toward Reno.

After a surfeit of limited round contests and fake glove matches the sporting world turns with a sigh of relief toward Reno and its votaries are hurrying toward the spot where a memorable battle will be pulled off next Monday.

It is astonishing to note how many staid business men happen to have important engagements connected with mining and cattle buying about the beginning of the week.

You can't get a room in a hotel for love or money now for everything in Reno has been snapped up for Monday next.

It gives a man a lasting reputation and acknowledged standing in the world to have won a finish fight in Nevada, and you can depend upon it that there will be no throwing this fight or faking in any particular. Jim Jeffries will referee the mill and will stand no nonsense of any kind.

If there should be the slightest idea in the minds of the spectators that the affair was not on the level the persons participating it would not be considered a good risk by a life insurance company.

There is too much at stake for either man to attempt any crookedness and it will be like the fight in this city, a fight for blood and a battle worth going a long way to see.

The betting so far indicates that the public considers that each man has about the same chance as the other.

Their records show that they are about as evenly matched as any two men who ever stepped into a ring.

## A Common Sense Decision.

In the District Court of Washoe County, Judge Curlier has handed down a decision to the effect that workmen who furnish supplies to the owners of buildings and perform labor in placing such supplies in the construction of the building, and who have contracted for such supplies and labor directly with the owner of the building, are original contractors and are entitled to all the rights enjoyed by original contractors. This decision is directly contrary to one handed down many years ago by Judge Cheney, and which has been followed for many years by attorneys. The point which is of greatest interest to the workmen and sub-contractors, has never been passed upon by the Supreme Court.

## Notice.

All persons are forbidden to fish in the Hobart Creek reservoir or in the feeder to same. We have placed a watchman at this reservoir and all persons caught trespassing or fishing, contrary to this notice will be prosecuted.

Virginia & Gold Hill Water Co.

## State Liquor License.

The Sheriff gives notice that the State Liquor License is now due and payable. The license takes effect on the first day of July, and all wholesale and retail liquor dealers will take notice. All druggists dealing in liquors will act accordingly. Parties will call at the sheriff's office and receive their license.

## Stuck in the Mud.

Harry Millard Sr. and Jr., who departed for Reno in an auto Thursday had a lively experience. The machine was stuck in the mud in Pleasant Valley for several hours.

Hal Lemmon and a party of friends ran into the same mud hole and hung up for the night. Harry Edwards took the Virginia road and just where he is at no one yet knows.

## Commissioners Meeting.

The Board of County Commissioners will hold their regular monthly meeting on Saturday, July 1. All parties having claims against the county will present the same before the date mentioned.

H. B. VAN ETEN,  
Clerk of the Board.

## Position Wanted.

A Japanese wants a job of chamber work or porter at hotel or saloon. Small wages. Please call at No. 501, Chinatown.

The State board of pardons will meet July 10th. Already a number of applications have been filed for consideration.

H. C. Kettleman can supply you with box wood and slabs. Send your order to the hay yard or call up Main 45.

## MONTANA-TONOPAH.

Dividend of \$50,000 is Looked Upon as Certain.

There was a general round-up of the big-guns in the Montana-Tonopah company in this city yesterday and the calculation was that a special meeting of the directors would be held. That it was to have been an important gathering is evidenced in the fact that because one, just one, of the eleven men constituting the board could not get here, no formal session was held. Another trial will be made on Saturday, and the entire board being at roll call, a session will be held either at Reno or at Tonopah.

Those who reached here from different points of the compass yesterday were C. E. Knox, president; Donald B. Gillis, general manager; Edgar Knox, secretary and treasurer, M. L. McDonald, G. F. Badgett, R. P. Dunlap, C. A. Bartlett and Senator George S. Nixon. C. E. Morris was expected down from Montana, but he found it impossible to get here and the expectation is that he will join his associates at Elko on Saturday, when A. C. Ellis, Jr. vice-president of the company and W. H. Dickson, the other local director, will be on hand also.

Just what the meeting is being arranged for not a single one of the directors will admit. It is believed, however that one of the important matters to receive attention will be that of arranging a dividend schedule that can be carried out without calling the directors together for each declaration. The company is known to have a handsome surplus in its treasury now and it will not be surprising to hear that the directors have posted a dividend at the coming meeting of 5 cents a share, or \$50,000, and that the order has been made to repeat it quarterly.

There may be others matters of moment to consider, but if there is the directors and officers of the company are keeping it to themselves so closely that no intimation of what it is can be gleaned. One thing is certain, every last mother's son of them are in high good humor, so the shareholders need not fear hearing anything other than good news.—Salt Lake Herald.

## Salaries of Reno Officials.

The City Council of Reno has passed the new salary ordinance, fixing the salary of the Mayor at \$600; City Engineer, \$1500; Clerk, \$1000; Chief of Police, \$1500; Chief of the Fire Department, \$1500; Patrolman, \$800; Councilmen, \$300. The salaries are practically the same as last year but the expenses of maintaining the fire department will be much heavier.

## Killed at Verdi.

George Frank, a former resident of Washoe City was instantly killed at Verdi Thursday evening.

Frank attempted to board a train as it pulled out of the town, and in doing so was pulled under the wheels. The body was nearly severed and both arms were broken.

The deceased was well known in this city, where many friends will regret to learn of his untimely death. He had been employed in Floriston for some time and lately took the agency for a cutlery firm.

P. J. Kelly, while insane, died in Tonopah Monday. He was a member of the A. O. U. W. and leaves a wife in Bisby Arizona. He at one time resided in Gold Hill.

The Florida mine at Lida has started its five-stamp mill. The company has \$250,000 worth of ore blocked out.

## BETTER AUTO SERVICE.

Will be Put in Between Las Vegas and Goldfield.

LOS ANGELES, Cal., June 28.—The Salt Lake Route is planning to install an automobile service to Goldfield which will be established in the early part of July.

The business between Las Vegas and Bullfrog, a distance of 110 miles, will be handled under the name of the Nevada Rapid Transit Company, a corporation recently organized, and of which F. M. Grance, until recently in the general office of the railway, is the manager with headquarters at Las Vegas.

The schedule time between Las Vegas and Bullfrog will be ten hours, where formerly three days were required to make the trip. Connections will be made each day daily with the trains of the Salt Lake road.

## TOO MUCH GOLD.

Statistician Fears Product Will Depreciate Price.

W. L. Haverman of Cincinnati, a well known statistician and authority on the production of precious metals says there will be a greater production of gold in the United States this year than ever before in the history of the country, and that Nevada gives promise of outstripping all other states in the production of the yellow metal. Generally speaking he says there is an increase in the amount mined in every mining district where gold is found.

"This outlook" continued Mr. Haverman, "has caused a great deal of comment in certain financial circles as to the effect the increase would have upon the value of gold and whether the standard will be lowered. Quite a number of experts predict that this year the production of gold will be in excess of one hundred million dollars and that in 1906 it may run up to as high as \$150,000,000. In 1902 the production of gold in the United States \$80,000,000 while in 1903 the output was about \$74,000,000. The figures for 1904 are not yet available, but they will show a large increase, possibly greater than in 1902, which was a very prosperous year in the mineral districts.

"A great many people may believe that the increase in the production of gold may result in its depreciation. It is true that any large increase in the production of the yellow metal will effect the value of gold to the extent of raising the prices of commodities, and thereby necessitating the use of more money to purchase things which now come at lower prices."

## Austin Mines Purchased.

It is now an assured fact that the Clifton tunnel, Union mine and the Yankee Blade mines at Austin will be opened up and work resumed on an extensive scale within the next thirty days. Eastern capitalists have made a payment of \$10,000 and as soon as the necessary papers have been drawn and made of record, \$50,000 more will be paid over.

## From Paradise.

Mr. and Mrs. C. Riley, lately married, have returned from Paradise in Eastern Nevada. The happy people have taken up their residence in this city as they concluded that the could make a paradise in Carson.

The west bound trains are crowded with people on their way to Reno to take in the big time in that town.

## MINING REVIVAL.

Western Nevada Showing up Promising Districts.

The mining fever has struck Western Nevada in earnest. The new strikes at the Winters mine, the revival at Pinenut and the probabilities of capital taking hold of the Buckeye placers, together with the recent rich finds in Jumbo, have set the local prospectors hustling.

Last evening Albert Werner came in from Jumbo and brought in some specimen rock together with the news that prospectors are beginning to rush to the section. Three different parties left for the scenes of the new finds yesterday, all well equipped and intending to remain on the ground with the intention of working what they find.

Mr. Stanley of Goldfield, who is on the ground is most favorably impressed with what he has seen. He has made a score of pannings from the district and openly stated that if the same showing was made in Goldfield or any of the southern camps there would be a hundred men in the section in twenty-four hours. He has taken up a claim where he has found good pannings which indicates that all the ground is not yet covered with locations nor is all of the good ground prospected.

Mr. Kent who is interested in the Jumbo section has out several tons of high grade ore that will be shipped for reduction. He has a bond on the Smith property, and the fact that he is shipping ore is convincing proof that the section is not a mere boom but is substantial. News of the section is spreading rapidly and inside of a few weeks a boom will set in that will uncover several valuable claims.

The Kinkaid mill at Virginia City starts on a run for the Selby claims today. This run determines the question of a mill on the ground, in which event the camp will open with the best chance of any of the new districts in Western Nevada. Watch Jumbo grow.

## Postoffice Waits Overcome.

Those who called at the Tonopah Postoffice one day last week for their mail were treated to a spectacle which has possibly never before been witnessed in any city of the United States. Comfortably seated on a stool enjoying the contents of a bottle of beer and a ham sandwich sat a man, the perfect picture of contentment. He had been in the habit of waiting in line for hours at a time, standing until he had become leg weary. When he entered the postoffice he carried a stool and some lunch. As each person left the window he moved up a peg in line and when about half way to his turn hunger overtook him, but he had come prepared for such an emergency.—Sonopah Sun.

## Another New Mining Town.

Crescent is the name of the new townsite out from Searchlight, Lincoln county, and a boom has been started in the town because of the great ore values that have been found on the surface. In the Lucky Dutchman mine some free gold has been encountered that runs up into the thousands of dollars, while on the surface the outcroppings show values of \$200 to the ton.

Considerable excitement at both Las Vegas and Searchlight is going on over the new find, and people are making a run into the new territory, locating claims and buying town lots. There is a daily stage and automobile line into the new station from Searchlight, the fare of \$2 being charged for the trip, while the town has a splendid water supply and is free from alkali.

## Broke His Leg.

Word has been received from Wellington stating that George Reading, one of the popular residents of that place, has had the misfortune to break his right leg just above the ankle. George had a runaway with a horse attached to a rake and was thrown under the times. When rescued one leg was broken, his head cut open, and many minor wounds. He was resting as well as could be expected at last accounts.

## The Kintoscope.

Last evening the Kintoscope opened to a good audience and just as the bull dog was hanging onto the policeman the lights went out and the show was declared off for the evening. The band boys will open the new opera house in Gardnerville this evening and the vaudeville have a sure treat in store.

P. B. Ellis and party leave in a day or two on a camping trip into Hope Valley.
